

Pinch Series

Semi-Automatic Timed Flow Pinch Fillers

Key Features:

- Digital control package
- Job / recipe memory
- Stainless steel fill nozzles
- Stainless steel stand
- Electric and air operation
- Stainless steel construction
- Centrifugal pump
- Six fill heads

Options:

- Sanitary liquid connections
- Sanitary pump upgrades
- All pneumatic operation for filling flammable liquids
- Upgraded tubing for flammable and corrosive liquids
- Custom frames for filling specialty items
- Heated package for molten product filling
- Additional filler heads
- Liquid regulator for precise small volume fill

Also available

Mini-Pinch Table Top Pinch Filler

The Accutek Mini-Pinch filler is a compact table top, six-head, timed flow volumetric filler perfect for any application that requires filling free flowing aqueous liquids. It features the same benefits as the Pinch Series fillers just in a smaller package.

Pinch Series

Semi-automatic Timed Flow Pinch Fillers

Pinch nozzle close-up

The **Pinch Series Fillers** are timed flow volumetric fillers designed to fill water thin liquids to oils and creams. All the contact parts can be easily cleaned and are autoclavable which makes the machine ideal for the medical, pharmaceutical, food, cosmetic, and specialty industries.

The **Pinch Series Fillers** come complete with a fully adjustable stainless steel stand, six stainless steel nozzles, microprocessor timing clock, a pump, and can easily be made fully automatic with and ABL. The **Pinch Series** can fill up to 60 containers per minute depending on container size and product viscosity.

The **Pinch Series Fillers** are designed to fill containers between

0.5oz-128oz depending on model. In addition to being used as the center of your filling operation, a **Pinch Series Filler** can also be an inexpensive back up machine, or an alternative to using contract packagers, eliminating the cost of down time and expensive set up for small runs. The ease of operation makes them easy to use and affordable.

Recommended Products:

Water, Fruit Juices & Extracts, Food Coloring, Perfumes, Essential Oils, Nail Polish, Nail Polish Remover, Ink, Urine, Blood, Alcohol, Wax, Lip Balms, Candle Wax, Sun Tan Lotions, Light Shampoo's, Lotions & other similar products.

¹ Fill speed is dependent on Operator, container dimensions, and product characteristics.

² Fill range is model dependant.

³ Additional upgrades may be needed depending on product specifications.

Dimensions:

Height: 32" (812.8 mm)

Length: 18" (547.2 mm)

Depth: 67" (1701.8 mm)

Weight:

Approx. 70 lbs. (31.75 kg)

Filling Speed:

Up to 60 CPM¹

Fill Size:

.5 oz - 128 oz. (15mL - 3785mL)²

Viscosity Range:

Under 1 to 1000 CPS (Centipoise)

Foamy Product:

Yes³

Corrosive Product:

Yes³

Heated Product:

Yes (with option)

Particulates:

Yes (with optional upgrades)

Electrical:

110 VAC or 220/240 VAC

Single Phase, 20 Amp

Air Requirements:

90 PSI @ 2 CFM
