AccuSealer

Table Top Tube Sealer

The Accusealer Tube Sealer is the economical answer for sealing plastic or plastic lined tubes, and is ideal for user in medical, cosmetic, or scientific laboratory environments.

This unit makes sealing plastic tubes easy. Fast and reliable, this machine seals one rack of tubes in the time it takes to prepare a second rack. A one standard size rack is included with each machine. When you order, please send us you sample tubes on order to build your racks.

An external air supply is required to run this pneumatic sealer.

This machine is perfect for small batch runs, research & lab use or start-up operations. It's easy, safe and economical to operate, and the heat and cool timers ensure repeatable seal performance time after time.

OPTIONAL air compressors are available. Size, function, and price will vary. Contact a Accutek Representative to discuss what would best fit your project needs.

Dimensions:

Height: 14" (355.6 mm)
Length: 24" (609.6 mm)
Depth: 13" (330.2 mm)

Weight:

Approx: 37 lbs. (16.78 kg)

Sealing Speed:

25-40 CPM¹

Tube Size:

0.375" - 2"

Tube Length:

9" Max

Electrical:

120 Vac, 3 Apms

Air Requirements:

60 PSI @ 1.5 CFM

¹ Speed is dependent on: Operator, container dimensions, and container characteristics.
